

## Safety rules for drivers and compulsory use of mask in Italy

Dear Customer

In order to avoid gatherings in the terminal area and to keep an adequate social distance, please inform your drivers on the importance to stay in the cabin of their trucks during the waiting time at the terminal. Movements outside of the vehicle must absolutely be limited to check-in and use of terminal services, avoiding staying longer than necessary in the terminal yard or in the common areas.

We would also like to inform you that a new decree has been issued by the Italian government which makes the use of the mask compulsory outdoor, except in isolated places, and indoor throughout Italy with immediate effect. For this reason, we ask to always wear a mask on Italian territory.

Compliance with these regulations will ensure the safety of your drivers and other people in the terminal.

Thank you for your cooperation
